HARVEST

RUSSIAN YELLOW PEAS

Detailed Technical Specification

Subject to contract, approved sample and lot-specific Certificate of Analysis. Natural agricultural commodities vary by crop and lot.

PHYSICAL, ORGANOLEPTIC AND QUALITY

Quality parameter	Requirement
Type / subtype	Type I, Subtype 1 - yellow shades with translucent cotyledons
Class	Class 1 or better
Condition	Healthy, non-heating, dry, sound and suitable for transport and storage
Colour	Natural uniform yellow
Odour	Free from mouldy, musty, malty, rancid or other foreign odours
Mineral matter	0.10% max, no glass or metal fragments
Insect-damaged peas	2.00% max
Sprouted peas	0.50% max, no live beetles or larvae
Other yellow subtype	2.00% max
Type II / dark or mottled peas	1.00% max
Typical calibre	Approximately 5–7 mm; final sieve distribution by contract

Composition and applications: protein approx. 21–25% dry matter; starch is a major component; naturally low fat. Uses include soups, stews, purees, split-pea production, dhal, pea flour, extruded snacks, plant-protein ingredients and starch extraction.

FOOD SAFETY AND COMPLIANCE

Control	Requirement
General safety	Safe and suitable for human consumption
Pesticide residues	Codex MRLs and destination-country legal limits
Mycotoxins	Comply with applicable destination limits when required
Heavy metals	Pb, Cd, As and Hg within food-law limits
GMO status	Non-GMO declaration/test report when required
Infestation	Free from live storage insects and pests
Allergen / gluten	Legume allergen notice; naturally gluten-free

PACKAGING, STORAGE AND EXPORT DOCUMENTS

Subject	Commercial provision
Supply formats	Bulk vessel or lined containers; 25/50 kg PP bags, FIBC 500–1,000 kg
Bag marking	Product name, origin, crop year, net weight, lot/batch, packing date, exporter/packer
Container condition	Clean, dry, odour-free, pest-free, weather-tight and food cargo suitable
Storage	Clean, dry, cool and ventilated; protected from rain, odours, chemicals and pests
Shelf life	12–24 months from packing depending on moisture, packaging and warehouse conditions
Inspection / sampling	Independent survey if required; GOST 13586.3 or agreed ISO/GAFTA method
Typical documents	Invoice, Packing List, B/L, COO, Phyto, Fumigation, Weight and Quality/Analysis certificates

KEY QUALITY LIMITS SUMMARY

Parameter	Commercial requirement	Clarification
Moisture	14.0% max	Tighter commercial limit; GOST Class 1 permits up to 15.0%
Foreign / weed matter	0.50% max	Includes organic and mineral impurities
Grain admixture	2.00% max	Other cultivated grains and pea defects classified as admixture
Split and broken peas	3.00% max	Contractual trade limit for whole product
Small peas below 5 mm	2.50% max	GOST Class 1 threshold
Live insects / infestation	Nil	No live storage pests at inspection

COMMERCIAL & LOGISTICS

Flexible execution for importers, distributors, processors and government buyers
